CANDID PHOTOGRAPHY

Indian candid photography is a mixture of the old and new. Because it covers a very traditional wedding in a new and different hue. It captures people when they are not aware of their picture being taken. Hence, the name candid. The photographers click pictures without staging a scene.

BETROTHAL MOMENTS

My love I have lived with all my being
to give a man comparable
to this one,
but nothing seems worthy.

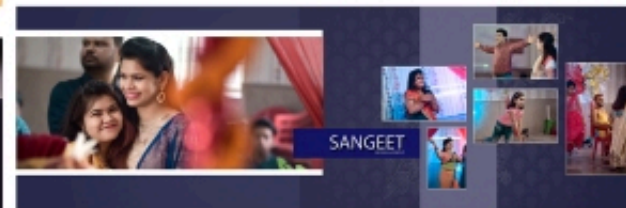

I know now why Shakespeare could not
compare his love to a woman's day.
It would be a crime to
diminish the beauty
of such a creature as this,
to simply call away the pretence
that had pleased in forging you.

Each facet of your being,
whether it physical or spiritual
is an ornament
that which flows to my veins.
But in the day betrothal forever
bind you for all eternity.
Our hearts always as one.

12X18

12X36

The image features a close-up of a camera lens, with the Sony logo visible on the top left. The lens is the central focus, surrounded by decorative floral elements in shades of teal and brown. The background is a soft, out-of-focus bokeh of light circles. The entire composition is framed by a thin teal border.
